Exam Preparation

Data Communications

Answer all questions

6 questions – 2 @ 20 and 4 @ 15

2 hours = 120 minutes

Read at beginning and at end = 10 minutes each = 20 minutes

Each question has a minute per mark

Algorithm and Data Structures

4 questions @ 33 marks

Answer 3 out of 4

2 hours = 120 minutes

Read at beginning and at end = 10 minutes each = 20 minutes

Each question has a minute per mark

Human Computer Interaction

4 questions – 1 @ 40 while 3 @ 30 marks

Answer 1 and 2 out of 2,3 and 4

2 hours = 120 minutes

Read at beginning and at end = 10 minutes each = 20 minutes

Each question has a minute per mark

Software Engineer 2

5 questions @ 25 marks

Answer 4 out of 5

2 hours = 120 minutes

Read at beginning and at end = 10 minutes each = 20 minutes

Each question has a minute per mark

Object Oriented Programming

6 questions @ 25 marks

Answer 4 out of 6

3 hours = 180 minutes

Read at beginning and at end = 10 minutes each = 20 minutes

Each question has a 40 minutes to answer
